

Learning Hub Courses List for BC Health Care Assistants

This list of courses has been selected to promote the learning and development of Health Care Assistants (HCAs) in BC.

Please note:

- The listed LearningHub courses are free and online.
- The LearningHub is open to health care employees, physicians, students and volunteers. Select courses are available to the public. Access to some courses may depend on your LearningHub account type (e.g., public, health authority or affiliate account).
- It is recommended that you visit the LearningHub through Google Chrome. Mobile devices can access registration and account activities. Most online courses, however, require a desktop or laptop computer.
- When you select a course name on the list of courses provided, you will be directed to the course registration
 page.
- While many LearningHub courses are created with specific learners in mind, information in the courses is applicable to health care assistants.
- There are many other courses available to HCAs in the LearningHub, including those your employer may require you to take.
- Courses are listed in alphabetical order (not in order of importance).

To login or sign up for a LearningHub account, visit https://learninghub.phsa.ca/Learner/Home
